

BEYOND THE CAMERA

Experience the Future

At last! You can do it! Be that television or film director, producer, or actor that you've wanted to be.

BTC is a six day rollercoaster where teenagers from all over NZ Make real television and movies

Where is Beyond the Camera held?

It's based in the only professional television studio complex in a new Zealand school, St Andrew's College, Christchurch, New Zealand.

"BTC opened doors for me to get into an amazing industry. It's a place you shed tears over leaving and an opportunity you never forget."

Mitch Nicholson,
NZ Broadcasting School Student

BTC changes lives!

Believe me it does. It must happen, when you get 100 teenagers together, to spend a week learning about television and film making, meeting other crazed people, working alongside the professionals.

They start maybe with no knowledge at all on Sunday afternoon, and by Saturday they're real broadcasters who produce a major two hour long live TV show, from at least three locations showcasing the studio items and films they've made during the week, along with items that are live in front of a live audience.

Yes, BTC changes lives.

"I loved the unbridled creativity and camaraderie of the course, and came back many times."

Benjamin Shearer B.B.c, Senior Operations Engineer, London
